BLUE MAN GROUP MEGASTAR WORLD TOUR
PREMIERES IN SEOUL, KOREA
JUNE 10, 2008

Blue Man Group Rock Concert Parody Features, Eight-Piece Band and Guest Vocalists

New York, NY – **Blue Man Group**, the international entertainment phenomenon best known for their popular live theatrical and musical events, will present the *Megastar World Tour* for the first time in Seoul, Korea, for a two week appearance at Sejong Center beginning on June 10, 2008. This wildly successful Blue Man Group music tour, the trademark Blue Man rock concert experience, has so far entertained over 2 million people and visited nearly 300 cities across the United States, Canada, Mexico, and South America.

In the *MegaStar World Tour*, the innocent, inquisitive Blue Man character goes on a satirical discovery of how to become a rock music megastar. By following an instruction manual for the “perfect rock concert experience,” Blue Man humorously explores the rules of rock music and the best ways to obtain quick universal success. This multimedia musical performance also features state-of-the-art technology with innovative video and light shows. The result is a step-by-step, song-by-song, head-bobbing, fist-pumping and uniquely clever interactive show that delivers hypnotic entertainment for all ages.

Showcasing their musical talents, the Blue Men perform on their signature instruments including the PVC instrument, the Drumbone, and the Air Poles. Along the way, the Blue Man 8-piece band adds to the excitement as a united percussive force.

“We are so thrilled to bring the *MegaStar World Tour* to the great nation of Korea,” stated Seth Freed, Senior General Manager for Blue Man Group Records. “We do our best to make every Blue Man Group show a ‘not to be missed’ experience and we are all excited to share our latest production with new fans from all over the world.”

Known for the blissful party atmosphere in their theatres, Blue Man Group live events features a combination of music, art, comedy, science, and technology. This modern-day vaudeville entertainment company creates theatrical productions as well as concert tours. Their theatre shows currently perform in New York, Boston, Chicago, Las Vegas, Orlando, Berlin and Tokyo. The *Megastar World Tour* will visit France, Korea, Austria, Germany, Holland and Denmark in 2008.
